Hair Fall Treatment in Chennai

Why Hair Fall Occurs?

Everyone wants to have healthy and strong hair. But in today's world, hair fall is quite natural and is a universal problem for both men and women. The below reasons will give a glimpse of why hair fall may occur:

1. Stress
2. Pollution
3. Unhealthy Diets
4. Nutritional Deficiency
5. Genetic Factor
6. Hair Care Products
7. Medical Conditions

These effects can take a toll on our hair resulting in hair loss. If you have been experiencing this for quite some time now, take some measures to control with our best **hair loss treatments in Chennai.**

Professional Hair Fall Treatments in Chennai:

For hair loss, there are numerous therapy options.

Well, listed below are the recommended treatments to treat hair thinning and hair loss in the crown area, temples, and scalp partition:

Hair PRP Therapy is a non-surgical treatment that uses Platelet-Rich Plasma to stimulate the scalp and promote rapid hair growth.

Stem Cells PRP Treatment is a patented formula that stimulates the body's natural healing process to reverse hair loss and restores hair growth.

Derma Pen is a hair treatment that works by applying the medication directly to the scalp, which can help in the overall regrowth of new hair, strengthen existing hair and reduce hair loss.

Why Hair Fall Treatment Procedures are Unique at Orange Clinic?

1. FDA-approved medical equipment.

2. Hair & scalp analysis is done to discover why hair fall started in the first place.

3. Patient's medical background and other factors are considered when recommending the best treatment.
